

Statement from President Donald J. Trump

“...I’m going to completely and totally forgive all deferred payroll taxes without in any way, shape, or form hurting Social Security. That money is going to come from the General Fund. We’re not going to touch Social Security. I said from day one that we are going to protect Social Security, and we’re going to protect our people. And Social Security is one of the things that will be protected. Pre-existing conditions will be protected. Medicare will be protected.

But Social Security will be totally protected under me...”

President Trump
